REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The references of record do not teach or suggest a method comprising: **after forming one via in the developed photoresist on the backside surface of the wafer**, first heating the photoresist between about **130 °C to about 135 °C for about one hour**, and second heating the photoresist between about **180 °C to about 190 °C for about one hour** in order to avoid thermal shock (also see applicant's disclosure, [0042] on page 12). A person of ordinary skill in the art would not have been motivated to perform two steps baking with one hour each so as to avoid thermal shock because the prior art does not recognize the problem of thermal shock, and therefore, does not teach or suggest the methods of the invention to solve that problem.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kin-Chan Chen whose telephone number is (571) 272-1461. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nadine Norton can be reached on (571) 272-1465. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
